

DEPARTING EMPLOYEE PROGRAM

Employees that leave your organization can be the greatest risk to the protection of your intellectual property.

What is the Departing Employee Program?

This flat fee program consists of defined computer investigation service packages that identify and report on employee data activity. The packages vary as to scope and cost in order to provide you with a level of assurance proportionate to the value of the employee and the access that the employee had to your company property.

What Do You Get?

- Predictable cost
- Cost savings
- Easy to understand reports for both Windows and Mac
- Fast turnaround

How does it work?

Choose from Platinum, Gold and Silver packages that are strategically bundled at different levels to meet any service needs. Once the work is completed, you will receive an easy to read report which will help you decide if you need to investigate further.

SILVER: \$750.00
